

2023 STYLE GUIDE

inverness[®]
Safe & Gentle Ear Piercing

New for 2023

This year's Inverness Style Guide introduces you to an assortment of fresh new looks and faces! Our product development team has created a wonderful collection of new styles featuring best-selling silhouettes in a range of metals.

Inside this 2023 Style Guide, you will find:

- Sparkling lab grown and natural diamond piercing studs in a range of sizes and styles for every budget (page 4)
- Looks we love in favorite silhouettes, crystals, and timeless black CZs (page 6)
- Fun new youth styles in popular shapes (page 8)
- New short post styles for little ears (page 10)

Let us know what you think! We look forward to working with you to make 2023 your best year yet.

Look for the ✓ in our Style Directory to find proven sellers that are new to our 2023 Style Guide.

Happy Piercing!

Sparkling Diamonds

NEW

Lab Grown Diamonds

We are pleased to introduce four new styles featuring lab grown diamonds. Lab diamonds have the same chemical, physical, and optical properties as natural diamonds and can be a more affordable option. Available in 14K yellow and white gold in both regular and short post styles.

Designed for thick earlobes & cartilage piercings

Size ranges are approximate.
Not every style is available in all
3 post lengths.

About Our Earrings

Inverness piercing earrings come in a range of sizes & metal choices to match every look and budget.

Safe & Sterile

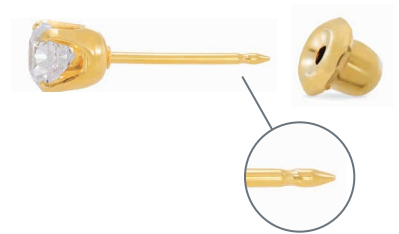

- Inverness piercing earrings are packaged in sterile, tamper-resistant cassettes.
- Each individual earring & exclusive Inverness Safety Back™ are fully-enclosed in our sterile earring capsules to guard against exposure to potential contaminants prior to piercing.
- All of our piercing earrings are hypoallergenic and made from the best materials available.

Gentle

- Every Inverness piercing stud is crafted with ultra-thin piercing posts & a finely-honed tip for the gentlest piercing possible.
- Lab tests show that piercing with Inverness requires 23% LESS force than our leading competition!
- Based on these results, we can confirm that the Inverness Ear Piercing System is significantly more comfortable and gentle during the piercing process.

Proven
Gentle

Hypoallergenic Metals

- Inverness piercing earrings come in a wide range of hypoallergenic metal choices including 18KT, 14KT & 10KT gold, 24KT gold plate, medical grade stainless steel, and medical grade titanium.
- All Inverness piercing earrings meet the most stringent global standards for nickel release requirements (European Union Nickel Release Directive No. 1907/2006, REACH Annex XVII).
- Our medical grade titanium earrings are nickel-free, providing maximum peace of mind for people with known nickel allergies.

**Dermatologist
tested & proven
non-irritating**

Inverness aftercare solution is specially-formulated for optimal care of newly pierced ears. Our solution cleanses safely and gently without stinging. The active ingredient is Benzalkonium Chloride which will not dry or chap the skin like alcohol or hydrogen peroxide.

✓ **Vegan-Friendly**

✓ **Cruelty-Free**
